TECHNICAL SKILLS

Languages & Web Technologies:

- HTML
- CSS
- JavaScript
- C
- Python
- MySQL

Frameworks & Tools:

- AngularJS
- UI/UX Design
- Git
- GitHub
- VS Code

CAREER OBJECTIVE

I have a solid foundation in HTML, CSS, and JavaScript, and I'm looking to begin my career in frontend or SQL development. I enjoy creating clean, user-friendly websites and am currently building my skills in backend and database technologies to grow into a full stack developer. I'm excited to apply what I've learned and be part of real-world development projects.

EDUCATION

- Bachelor of Computer Applications (BCA)** 2021 - 2024
Vikas College | Tilak Maharashtra Vidyapith
CGPA: 6.700
- Full Stack Web Development with Python** 2024 - 2025
Aptech Institute

PROJECTS

- Career Guidance AI Chatbot**
Developed a virtual Career Guidance Chatbot using Natural Language Processing (NLP) and deep learning (Torch). Designed a web-based interface to answer 50+ career-related queries. Ensured smooth user interaction and easy scalability for adding new career paths and recommendations.
Tech Stack: Python, Torch, NLP, HTML, CSS, JavaScript
- Personal Portfolio Website**
Designed and developed a fully responsive personal portfolio to showcase projects, skills, and academic background. Employed modern UI/UX principles to enhance aesthetics and accessibility across devices. Built using HTML, CSS, and JavaScript.
- 2D Platformer Game**
Created a simple 2D platformer game using Python and Pygame. The player can move, jump, and shoot bullets while avoiding enemies like bees and worms. I added basic animations, collision detection, and used the Tiled map editor to design the game levels.
Tech Stack: Python, Pygame, Tiled
